EMBROIDERY

PRODUCT DETAILS

Hand embroidery is basically embellishing the cloth with colourful threads and beautiful beads. It is an art that is made with help of needles and thread creating beautiful patterns off design on the fabric. The embroidery designs are delicate and influenced by mughal design. The designs and motifs are immensely illustrated by using subtle shades of colours.

The embroidery was traditionally made on house hold objects such as toran and Chakal and on the long skirts worn by the women of the region. The hand work is done carefully using Coloured threads. Each embroidery styles and motifs depend on the artisans creativity. The colourful threads and beading work gives an aesthetic look to the cloth.
